EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Troy M. Schmelzer on June 28, 2005.

The application has been amended as follows:

- a. Claim 25, line 29, examiner has changed "predetermined (L1)" to --a predetermined gap space of the first bearing portion (L1)--.
- b. Claim 25, last line, examiner has changed "predetermined (L2)" to --a predetermined gap space of the second bearing portion (L1)--.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figure 5 will be amended with the appropriate labeling in English. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. The following is an examiner's statement of reasons for allowance: The prior art fails to teach a fluid dynamic bearing as defined by the claims. As noted in the last Office Action, the Japanese reference to Kita teaches a similar bearing arrangement having a thrust plate, wherein a depth of dynamic pressure generating grooves of a first

Art Unit: 3682

bearing portion is larger than that of a second thrust bearing portion. As noted in applicants' remarks filed April 22, 2005 (pages 5-6), Kita teaches the depth of the dynamic pressure generating grooves (6a) formed on the upper face (2a) of the thrust plate is set in the region B of Figure 2. Accordingly, the grooves formed on the upper face of the thrust plate disclosed by Kita fails to meet the limitation defining the depth of the grooves being adjusted so that the coefficient of elasticity of the thrust bearing has about a maximum value under a predetermined gap space. Claims 25-31 are allowed over Kita.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William C. Joyce whose telephone number is (571) 272-7107. The examiner can normally be reached on Monday - Thursday 7:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Bucci can be reached on (571) 272-7099. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
